Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: Discussed a proposed Examiner's Amendment submitted by Applicant's Representative and how the structural differences between the present invention and the prior art used to reject the claims in the Final Rejection mailed 03/26/2007 and how those differences were being defined to overcome those rejections. Also, discussed certain 112/2nd problems where vague words such as "other" and "another" were used instead of the exact structure that was being defined and words that were omitted in the dependent claims. Discussed changing the words "another" and "other" to the structure being defined and adding those missing words to avoid any confusion or unclarity with those claims. The proposed Examiner's Amendment was agreed upon and entered as such.
